Re: Court Rule No. 2003-47

It has come to my attention that the Michigan Supreme Court is attempting to change the law and deny me the right to trial by jury. It concerns me that the Michigan Supreme Court is being used as a tool of the asbestos industry and big business to deny working people their constitutional rights to jury trials when harmed by corporate misconduct.

The crisis in the State of Michigan regarding asbestos litigation is the fact that big business, corporations, the asbestos industry and law firms like Dickinson Wright feel free to try to take working peoples' lawsuits out of court and away from juries. I shouldn't have to remind you that the Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial?

Thank you for your time and allowing me to voice my concerns.

Respectfully,
